## Short Business Meeting followed by Tom Perkins discussing his Katahdin sheep operation in Fombell, PA

Big Tom Perkins grazes 150 registered Katahdin ewes on 70 acres, focusing on production tested breeding stock raised on pasture in a rotational grazing system. His sheep are moved to a new paddock each day and most paddocks are rested in excess of 90 days. His flock is heavily bred for parasite resistance and gain well on just grazing alone. He grazes 365 days a year.
